* While finishing Headspace, I experienced one of my worst flairs. I cried for hours. Light hurt. Fabric hurt. I slept for 17+ hours straight to escape it. Invisible illnesses take so much.

Hello! My name is Hole & I am a 26 year old artist, with a BA in Art History. My mediums of choice varies daily from acrylic, jewelry, digital. My subjects are often figures/fantasy.

"HEADSPACE"

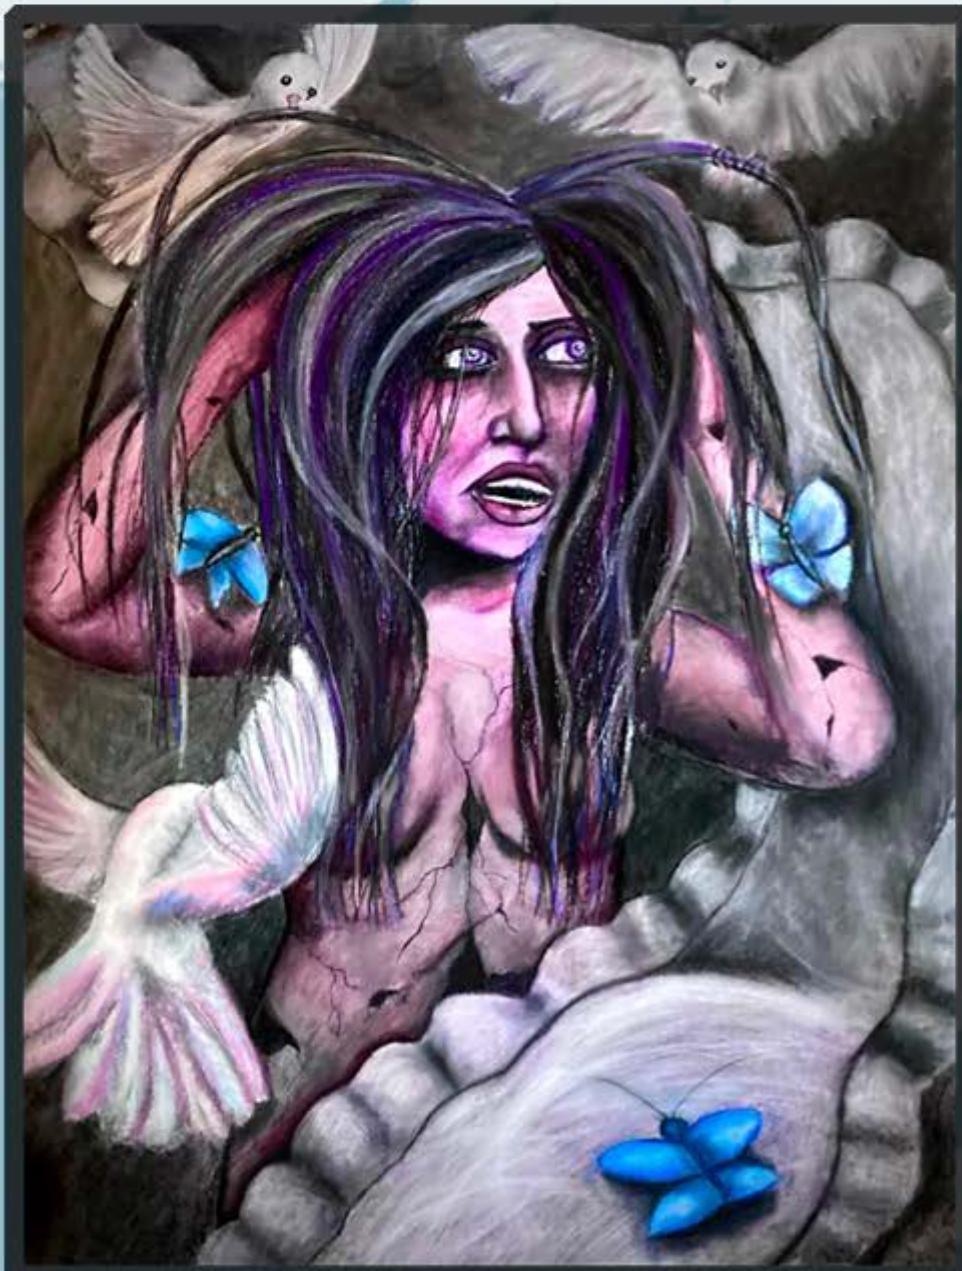

"Headspace", a self-portrait, reflects my internal struggles with anxiety, depression, & chronic autoimmune issues. These are often labeled "invisible", it's easy to fall into an internal abyss. The butterflies & orbs represent the bright moments. The external wounds represent the physical manifestations of my medical struggles—sometimes the only evidence that it's not "just in my head."
